

PROJECT TEMPLATE

BUILD AN EMPLOYEE TRAVEL APPROVAL APPLICATION FOR CORPORATES

1 INTRODUCTION

1.1 Overview

Our organization has decided to implement a custom travel approval app. Up until now, you had a travel approval process in place based on emailing spreadsheets. It had no central repository or enforcement of the process, resulting in the inability to report on travel approval activities across the organization. You need to create an application that meets the following requirements:

- Each employee must submit an electronic request in the system for future travel.
- Each request includes a list of estimated expenses for airfare, hotel, rental car, and so on.
- Each request must be approved by the employee's manager, and all out-of-state must be approved by a travel coordinator.
- Managers need reports and dashboards to track key travel request trends and KPIs.
- In addition, employees and managers must be able to access their travel requests, approvals, and dashboards via mobile device.

By the end of the project, you'll have a working prototype of the new travel approval application. You start by creating a travel approval app that provides a view of your specific travel-related objects, which you create in the next steps.

1.2 Purpose

- Improving our working skills and well-being.
- Improving our language skills.
- Learning intercultural competencies.

The achievement of the project is to develop the corporates in profit and develop the skill of the employees. It leads to the company to high level.

2 Problem Definition & Design Thinking

2.1 Empathy Map

Team P

Empathy map

Use this framework to develop a deep, shared understanding and empathy for other people. An empathy map helps describe the aspects of a user's experience, needs and pain points, to quickly understand your users' experience and mindset.

[Show template feedback](#)

Build empathy

The information you add here should be representative of the observations and research you've done about your users.

Says

What have we heard them say?
What can we imagine them saying?

Thinks

What are their wants, needs, hopes, and dreams? What other thoughts might influence their behavior?

Does

What behavior have we observed?
What can we imagine them doing?

Feels

What are their fears, frustrations, and anxieties? What other feelings might influence their behavior?

Give them a name and a persona to empathize with your persona.

Changes The Person's perspective

It's use to gain more profit to corporates

It's Improves Overall Health

It is Harmful To Health And Fitness TO Employees

Ultraviolet Radiation From The Sun In Travelling

Missing Our Family In Traveling

We Imaging That There Behaviour Should Be Nice

They Take Carring Well

To modify our Dressing Code

Easy To Fill Applivation

There Is A Opportunity To Learn

Milestone 1-Create Salesforce Org:

Activity: 1 Create Developer Account

The screenshot shows the Salesforce Setup page for a user named Mr Karthik.E. The user is active and has the role of CEO. The user's details are as follows:

Field	Value
Name	Mr Karthik.E
Alias	MKart
Email	slumalaielumalai2530@gmail.com
Username	karthikkarthik2530@apple.com
Nickname	User16783624362561880704
Title	
Company	Thiru Kolanjappar Govt Arts College
Department	
Division	
Address	IN
Time Zone	(GMT+05:30) India Standard Time (Asia/Kolkata)
Locale	English (India)
Language	English

The user is active and has the role of CEO. The user's license is Salesforce. The user's profile is System Administrator. The user is a Marketing User, Offline User, Knowledge User, Flow User, Service Cloud User, Site.com Contributor User, Site.com Publisher User, WDC User, and Mobile Push Registrations are enabled.

Activity: 2 Account Activation

The screenshot shows the Salesforce Setup page for a user named Mr Karthik.E. The user is active and has the role of CEO. The user's details are as follows:

Field	Value
Name	Mr Karthik.E
Alias	MKart
Email	slumalaielumalai2530@gmail.com
Username	karthikkarthik2530@apple.com
Nickname	User16783624362561880704
Title	
Company	Thiru Kolanjappar Govt Arts College
Department	
Division	
Address	IN
Time Zone	(GMT+05:30) India Standard Time (Asia/Kolkata)
Locale	English (India)
Language	English

The user is active and has the role of CEO. The user's license is Salesforce. The user's profile is System Administrator. The user is a Marketing User, Offline User, Knowledge User, Flow User, Service Cloud User, Site.com Contributor User, Site.com Publisher User, WDC User, and Mobile Push Registrations are enabled.

Milestone 2-Create the Application:

Activity-1: Create the Travel Application

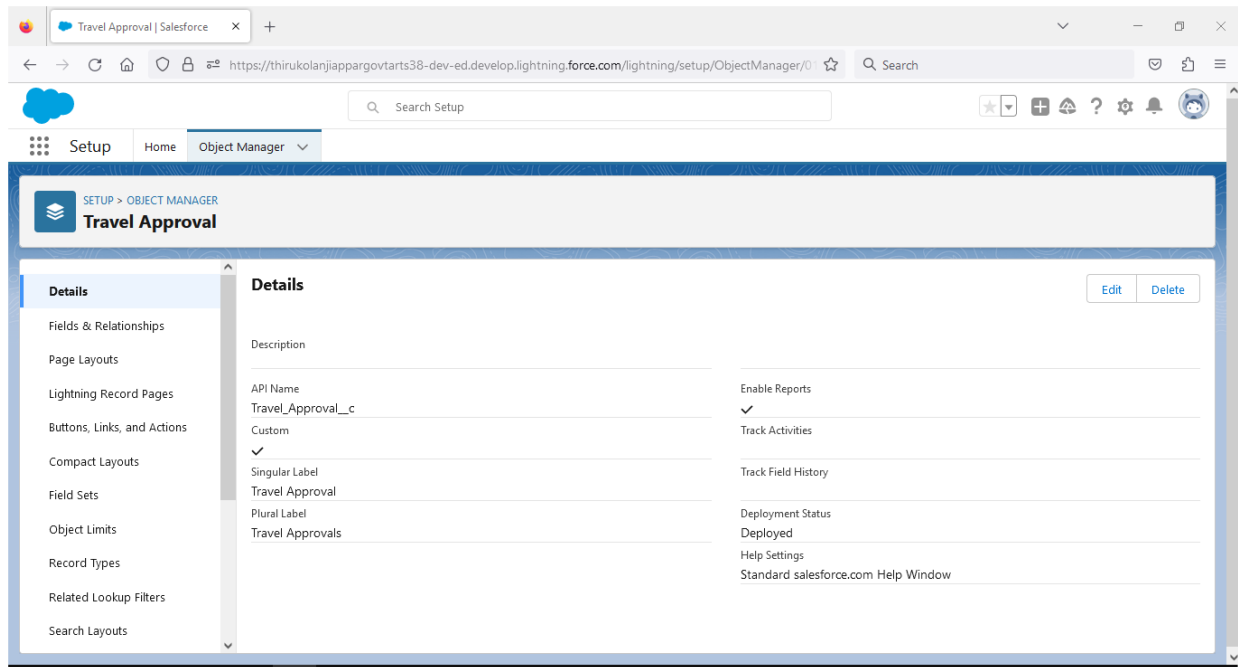

The screenshot shows the Salesforce Lightning App Builder interface. The browser address bar displays the URL: <https://thirukolanjappargovtarts38-dev-ed.develop.lightning.force.com/visualEditor/appBuilder.app?id=02>. The navigation bar includes 'Lightning App Builder', 'App Settings', 'Pages', and 'Travel Approval'. The left sidebar shows 'App Settings' with sub-items: 'App Details & Branding' (selected), 'App Options', 'Utility Items (Desktop Only)', 'Navigation Items', and 'User Profiles'. The main content area is titled 'App Details & Branding' and includes the instruction: 'Give your Lightning app a name and description. Upload an image and choose the highlight color for its navigation bar.' The 'App Details' section contains fields for 'App Name' (Travel Approval), 'Developer Name' (Travel_Approval), and 'Description' (Enter a description...). The 'App Branding' section includes an 'Image' upload button, a 'Primary Color Hex Value' dropdown set to '#0070D2', and 'Org Theme Options' with a checkbox 'Use the app's image and color instead of the org's custom theme'. An 'App Launcher Preview' shows a blue button with 'TA' and a grey button with 'Travel Approval'.

Milestone 3-what is an Object?

Activity: 1 Create Department Object

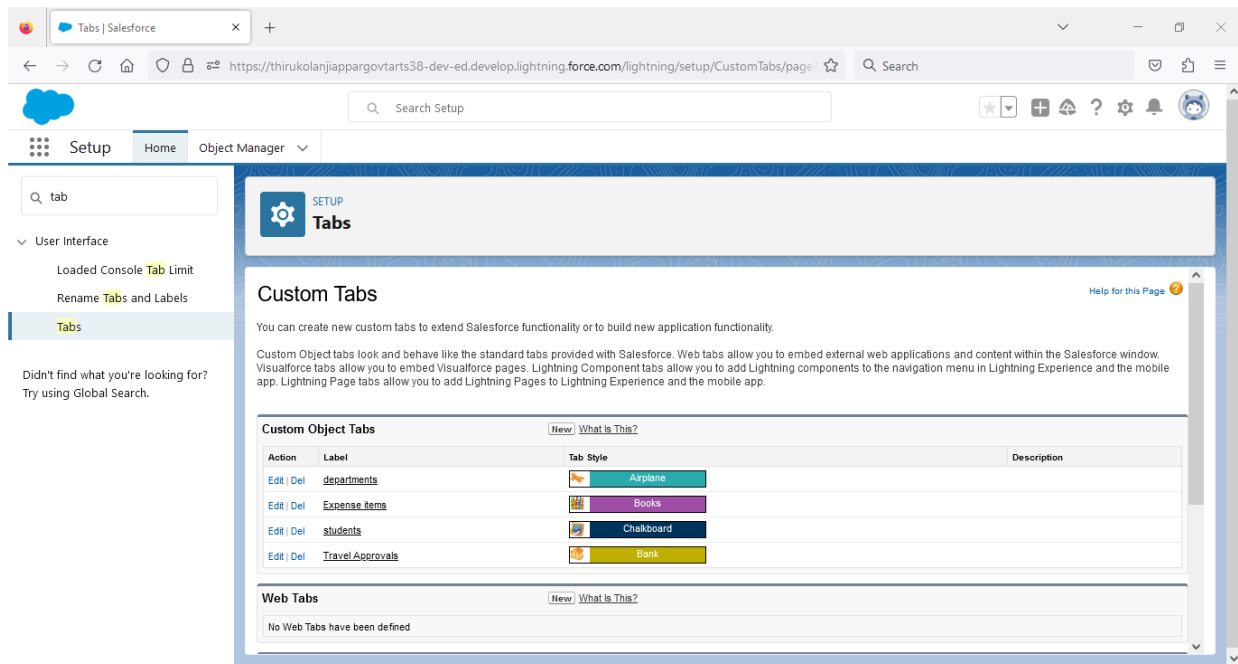

The screenshot shows the Salesforce Setup page. The browser address bar displays the URL: <https://thirukolanjappargovtarts38-dev-ed.develop.lightning.force.com/lightning/setup/ObjectManager/0>. The navigation bar includes 'Setup', 'Home', and 'Object Manager'. The left sidebar shows 'Setup > OBJECT MANAGER' with the 'department' object selected. The main content area is titled 'Details' and includes a search bar 'Search Setup'. The 'Details' section contains fields for 'Description', 'API Name' (department__c), 'Custom' (checked), 'Singular Label' (department), 'Plural Label' (departments), 'Enable Reports' (checked), 'Track Activities' (checked), 'Track Field History' (checked), 'Deployment Status' (Deployed), 'Help Settings' (Standard salesforce.com Help Window), and buttons for 'Edit' and 'Delete'.

Activity: 2 Create Travel Approval Object

Milestone 4-what is a Tab?

Activity: 1 Create A Custom Tab

Milestone 4-Create-Fields & Relationships:

Activity: 1 Create Fields & Relationships

The screenshot shows the Salesforce Object Manager interface for the 'student' object. The left sidebar contains a navigation menu with options: Details, Fields & Relationships (selected), Page Layouts, Lightning Record Pages, Buttons, Links, and Actions, Compact Layouts, Field Sets, Object Limits, Record Types, Related Lookup Filters, and Search Layouts. The main content area is titled 'Fields & Relationships' and shows 6 items, sorted by Field Label. The table below lists the fields:

FIELD LABEL	FIELD NAME	DATA TYPE	CONTROLLING FIELD	INDEXED
Amount	Amount__c	Currency(16, 2)		
Created By	CreatedById	Lookup(User)		
Expense items	Name	Text(80)		✓
Expense Type	Expense_Type__c	Picklist		
Last Modified By	LastModifiedById	Lookup(User)		
Travel Approval	Travel_Approval__c	Master-Detail(Travel Approval)		✓

Activity: 2

Create Expense Type Field

The screenshot shows the Salesforce Object Manager interface for the 'Expense item' object. The left sidebar contains a navigation menu with options: Details, Fields & Relationships (selected), Page Layouts, Lightning Record Pages, Buttons, Links, and Actions, Compact Layouts, Field Sets, Object Limits, Record Types, Related Lookup Filters, and Search Layouts. The main content area is titled 'Fields & Relationships' and shows 5 items, sorted by Field Label. The table below lists the fields:

FIELD LABEL	FIELD NAME	DATA TYPE	CONTROLLING FIELD	INDEXED
amount	amount__c	Picklist		
Created By	CreatedById	Lookup(User)		
Expense item Name	Name	Text(80)		✓
Last Modified By	LastModifiedById	Lookup(User)		
Owner	OwnerId	Lookup(User, Group)		✓

Activity: 3

Create Travel Approval Field

The screenshot shows the Salesforce Object Manager interface for the 'Travel Approval' object. The 'Fields & Relationships' section is active, displaying a table of 12 items. The table has columns for FIELD LABEL, FIELD NAME, DATA TYPE, CONTROLLING FIELD, and INDEXED. The items listed are:

FIELD LABEL	FIELD NAME	DATA TYPE	CONTROLLING FIELD	INDEXED
Created By	CreatedById	Lookup(User)		
department Field	department_Field__c	Master-Detail(department)		✓
destination state	destination_state__c	Text Area(255)		
Last Modified By	LastModifiedById	Lookup(User)		
Out of State	Out_of_State__c	Text Area(255)		
purpose of Trip	purpose_of_Trip__c	Checkbox		
Status	Status__c	Picklist		

Activity: 3.1

The screenshot shows the Salesforce Object Manager interface for the 'Travel Approval' object. The 'Fields & Relationships' section is active, displaying a table of 12 items. The table has columns for FIELD LABEL, FIELD NAME, DATA TYPE, CONTROLLING FIELD, and INDEXED. The items listed are:

FIELD LABEL	FIELD NAME	DATA TYPE	CONTROLLING FIELD	INDEXED
purpose of Trip	purpose_of_Trip__c	Checkbox		
Status	Status__c	Picklist		
Status Indicator	Status_Indicator__c	Formula (Text)		
Total Expenses	Total_Expenses__c	Roll-Up Summary (SUM student)		
Travel Approval #	Name	Auto Number		✓
Trip End date	Trip_End_date__c	Date		
Trip start date	Trip_start_date__c	Date		

Milestone 5-Import Departments:

Activity: 1

Import Departments

The screenshot shows the Salesforce Setup page for the Data Import Wizard. The breadcrumb trail is Setup > Home > Object Manager > Data Import Wizard. The page title is "Data Import Wizard" with a "Help for this page" link. Below the title is a "Recent Import Jobs" table with columns: Status, Object, Records Created, Records Updated, Records Failed, Start Date, and Processing Time (ms). The table contains one row: Closed, department, 16, 0, 0, 04-11-2023 05:02, 149. Below the table is a "Bulk Api Monitoring" button. A light blue callout box titled "Before you import your data..." contains three sections: "Clean up your data import file" (with a "Watch video" link), "Make sure your field names match Salesforce field names" (with a "View a list of Salesforce data fields" link), and "Don't import too many records at once".

Status	Object	Records Created	Records Updated	Records Failed	Start Date	Processing Time (ms)
Closed	department	16	0	0	04-11-2023 05:02	149

Milestone 6-Custmize User Interface:

Activity: 1 Create User Setup Approvals

The screenshot shows the Salesforce Setup page for Users. The breadcrumb trail is Setup > Home > Object Manager > Users. The page title is "Users" with a "Help for this Page" link. Below the title is a "All Users" section with a description: "On this page you can create, view, and manage users. In addition, download SalesforceA to view and edit user details, reset passwords, and perform other administrative tasks from your mobile devices: iOS | Android". Below the description is a "View: All Users" dropdown and a "Create New User" link. A table lists users with columns: Action, Full Name, Alias, Username, Role, Active, and Profile. The table contains four rows: Chatter Expert (Chatter, chatter00d2w00000rnluead, chatter00d2w00000rnluead@chatter.salesforce.com, Chatter Free User), Karthik E. Mr (MKart, karthikkarthik2530@apple.com, CEO, System Administrator), User Integration (integ, integration@00d2w00000rnluead.com, Analytics Cloud Integration User), and User Security (sec, insightsecurity@00d2w00000rnluead.com, Analytics Cloud Security User). Below the table are "New User", "Reset Password(s)", and "Add Multiple Users" buttons.

Action	Full Name	Alias	Username	Role	Active	Profile
Edit	Chatter Expert	Chatter	chatter00d2w00000rnluead, chatter00d2w00000rnluead@chatter.salesforce.com		✓	Chatter Free User
Edit	Karthik E. Mr	MKart	karthikkarthik2530@apple.com	CEO	✓	System Administrator
Edit	User Integration	integ	integration@00d2w00000rnluead.com		✓	Analytics Cloud Integration User
Edit	User Security	sec	insightsecurity@00d2w00000rnluead.com		✓	Analytics Cloud Security User

Milestone 7-Use Customization:

Activity: 1 Customize Travel Approval Object Page Layout

The screenshot shows the Salesforce Setup interface for customizing the Travel Approval object page layout. The left sidebar contains a navigation menu with options like Details, Fields & Relationships, Page Layouts (selected), Lightning Record Pages, Buttons, Links, and Actions, Compact Layouts, Field Sets, Object Limits, Record Types, Related Lookup Filters, and Search Layouts. The main content area displays the 'Travel Approval' object page layout editor. At the top, there are tabs for 'Save', 'Quick Save', 'Preview As...', 'Cancel', 'Undo', 'Redo', and 'Layout Properties'. Below these tabs is a 'Quick Find' search bar. The layout editor shows a preview of the page layout with various fields and sections. The 'Fields' section on the left lists fields like destination state, Status, Trip End date, Last Modified By, Status Indicator, Trip start date, Created By, Out of State, Total Expenses, department Field, purpose of Trip, and Travel Approval #. The preview area shows a sample record with values like GEN-2004-001234 for Travel Approval #, ₹123.45 for Total Expenses, and Sample Text for Status. The 'Trip Info' section shows a table with columns for purpose of Trip, Trip start date, Trip End date, Out of State, destination state, department Field, and Sample Text. The 'System Information' section shows Created By and Last Modified By fields.

Milestone 8-Add Business Logic to Travel App:

Activity: 1 Create Validation Rule

The screenshot shows the Salesforce Setup interface for creating a validation rule for the Travel Approval object. The left sidebar contains a navigation menu with options like Field Sets, Object Limits, Record Types, Related Lookup Filters, Search Layouts, List View Button Layout, Restriction Rules, Scoping Rules, Triggers, Flow Triggers, and Validation Rules (selected). The main content area displays the 'Travel Approval Validation Rule' page. At the top, there is a 'Back to Travel Approval' link. The 'Validation Rule Detail' section shows the rule name 'Travel_Approval', which is active. The 'Error Condition Formula' is 'Trip_End_date__c < Trip_start_date__c'. The 'Error Message' is 'location'. The 'Error Location' is 'Trip End date'. The 'Description' is 'Mr.Karthik.E, 05/04/2023, 5:58 pm'. The 'Created By' is 'Mr.Karthik.E, 05/04/2023, 5:58 pm' and the 'Modified By' is 'Mr.Karthik.E, 06/04/2023, 6:52 am'. There are 'Edit' and 'Clone' buttons for the rule.

Activity: 2

Create Rollup Summary Fields

The screenshot shows the Salesforce Setup interface for the 'Travel Approval' object. The left sidebar lists navigation options: Details, Fields & Relationships (selected), Page Layouts, Lightning Record Pages, Buttons, Links, and Actions, Compact Layouts, Field Sets, Object Limits, Record Types, Related Lookup Filters, and Search Layouts. The main content area is titled 'Total Expenses' and includes a 'Back to Travel Approval' link. Below this is the 'Custom Field Definition Detail' section with tabs for Edit, Set Field-Level Security, View Field Accessibility, and Where is this used? The 'Field Information' table shows the following details:

Field Label	Total Expenses	Object Name	Travel Approval
Field Name	Total_Expenses		
API Name	Total_Expenses__c		
Description			
Help Text			
Data Owner			
Field Usage			
Data Sensitivity Level			
Compliance Categorization			
Created By	Mr Karthik E	Modified By	Mr Karthik E
Created Date	30/03/2023, 1:12 pm	Modified Date	01/04/2023, 9:30 am

Below the field information is the 'Roll-Up Summary Options' section:

Data Type	Roll-Up Summary	Summary Type	SUM
Summarized Object	student		
Field to Aggregate	student.Amount		

Activity: 3

Create Formula Fields

The screenshot shows the Salesforce Setup interface for 'Static Resources'. The left sidebar has a search bar with 'static Resources' and a list of custom code items, including 'Static Resources' (highlighted). The main content area is titled 'Static Resources' and includes a 'Help for this Page' link. Below the title is a description: 'Use static resources to upload content that you want to reference in a Visualforce page, including .zip and .jar files, images, stylesheets, JavaScript, and other files.' There is a 'View:' dropdown set to 'All' and a 'Create New View' link. A table lists the static resources:

Action	Name	Namespace Prefix	Description	MIME Type	Size	Created By Alias	Created Date	Last Modified Date	Cache Control
Edit Del	StaticImages			application/x-zip-compressed	39,130	MrKart	03/04/2023	11/04/2023, 10:46 am	Private

Create Status Indicator Field

The screenshot shows the Salesforce Setup interface, specifically the Object Manager for the 'Travel Approval' object. The 'Status Indicator' field is being defined. The field information section shows the field label as 'Status Indicator', field name as 'Status_Indicator', API name as 'Status_Indicator__c', and object name as 'Travel Approval'. The formula options section shows the formula: `IF (ISPICKVAL(Status__c , "Approved"), IMAGE("/resource/StatusImages/thumbs-up.png", "Approved", 20, 20), IF (ISPICKVAL(Status__c , "Rejected"), IMAGE("/resource/StatusImages/thumbs-down.png", "Rejected", 20, 20), IMAGE("/resource/StatusImages/draft.png", "In-Process", 20, 20)))`. The field was created by Mr. Karthik E. on 05/04/2023 at 6:23 pm.

Milestone 10-What are Reports?

Activity:

Add Report

The screenshot shows the Salesforce Reports page. The 'Recent' section lists three reports: 'New karthik Account Reports', 'New karthik departments Report', and 'New karthik Opportunities Report'. The table columns are Report Name, Description, Folder, Created By, Created On, and Subscribed. The 'Recent' report was created by Mr. Karthik E. on 6/4/2023 at 2:57 pm.

5. ADVANTAGES & DISADVANTAGE

Advantage:

1. Business travel is great way to develop new skill, confident, speaking, adaptability, time management and networking
2. To achieve a peace of mind and make memories. Then we can understand our self.
3. Traveling allows us to meet people of different cultures with diverse traditions and distinctive lifestyles. This is also good for breaking the monotony of the work because meeting with new people.
4. Finding a new place and exploring the places is the central part of business travel. It helps the employees to develop the knowledge to do business operation.
5. This also gives an impact on the productivity and growth of the organization.

Disadvantage:

1. Business travels are expensive because companies spend a lot of money on it. Not only the plane ticket, but companies also provided hotel costs, transportation costs and food services to their employees.
2. So it is evident that business travel is dependent on the tremendous amount of money of the organization. Sometimes it creates difficulty for the small startup business organization.
3. This is the principal disadvantage of business travel, and frequent traveling can be responsible for creating significant health problems for employee.
4. Because of this employees cannot concentrate on their work, which affects the organization's productivity.
5. Consuming unhealthy food constantly can create health problems for employees. Then it will be stressful for us or staff members.

6. APPLICATION

- Sample application natural one, its focus is to show natural one functionality rather than being a full-fledged for travel.
- The Travel Support System (TSS) allows us to request and approve business trips.
- Flights hostels and even more external information such as cell phone expenses or car rentals can be entered with the trip request.
- A manager can do both, request own trips as well as approve trips that have been request by employees.
- After the manager has approved single or multiple requested, the manager can print an itinerary or receive the itinerary has a file.

7. CONCLUSION

It is a great opportunities to learn salesforce in the topic of a Build an Employee Travel Approval Application for Corporates. In that travel for employee in a company is useful to learn and gain more knowledge. It is also useful to corporates by earning the profit nearly 20% to 50% of profit to companies.

It is useful to report by the phone immediately and give explanation for corporates or company.

8. FUTURE SCOPE

Travel industry is improving futuristic by including new travel trends in its ecosystem making it more feasible for the public.
